I'm a third-year History student with a strong interest in technology and digital innovation. Alongside my academic journey, I have developed skills in full-stack web development, cross-platform app development, and software solutions. I bring a detail-oriented mindset, a strong work ethic, and a continuous learning approach to everything I do.

WORK EXPERIENCE

Peterson Muthomi Softwares Software Developer

11/2023 - 10/2025

- Founded and managed a personal software brand, developing responsive websites and cross-platform apps with a focus on logical structure, usability, and system reliability.
- Developed portfolio and business websites with logical architecture, clean interfaces, and optimized user experience.
- Designed and implemented projects with careful attention to detail, testing features to ensure consistency, functionality, and user experience.
- Analyzed complex workflows and optimized platform structures, gaining hands-on experience in problem-solving and systems thinking.
- Integrated AI concepts and automation features to simulate intelligent decision-making and improve platform logic.
- Oversaw development workflows, version control, and deployment using Git and GitHub, ensuring structured, organized, and high-quality code.
